CORRECTION OF FILING RECEIPT

Sir:

Further to Applicants' communications to the Patent Office of April 14, 2004 and December 12, 2008 requesting issuance of a corrected Filing Receipt, Applicant has not yet received an updated Filing Receipt correcting the errors on the Filing Receipt mailed May 24, 2004.

In particular, the application serial no. should be 10/684,346, and the filing date should be October 11, 2008. Applicants note that the most recent Office action of May 26, 2009 does indicate that the correct serial number and filing date have been entered internally at the Patent Office. However, no formal updated Filing Receipt has issued.

A search of the Patent Office website also indicates that the continuity data has been correctly entered indicating that the present application is a continuation-in-part of U.S. application no. 10/684,230, which claims the benefit of U.S. provisional application no. 60/417,864. However, again, no formal updated Filing Receipt has issued.

Applicants request the Office to issue a formal updated Filing Receipt that shows the correct application information.

Respectfully submitted,

JHK Law
